MANI BHARATHI RAJENDRAN

Principal Engineer | Full-Stack JavaScript & AI Solutions Architect

Professional Summary

Senior Frontend Engineer with 15+ years of experience in building scalable, high-performance web applications using React.js, JavaScript (ES6+), HTML5, and CSS3.

Expertise in UI performance optimization, advanced state management using Redux and Context API, and developing component-based architectures for maintainable and reusable code.

Strong focus on clean coding practices, accessibility standards, cross-browser compatibility, and performance optimization.

Experience in leveraging AI-assisted tools such as GitHub Copilot, Cursor AI, and ChatGPT to improve development efficiency and code quality.

Skills

- **Web Technologies:** HTML5, CSS3, JavaScript (ES6+), TypeScript
- **Frontend Frameworks & Libraries:** React.js, Next.js, Redux, Context API, Tailwind CSS, Bootstrap
- **Frontend Architecture:** Component-driven architecture, Micro-frontends (Webpack Module Federation), State Management, Performance Optimization, Responsive Design
- **Backend & Integration (Growing Proficiency):** Node.js, Express.js, REST API development, API integration, Authentication (JWT-based)
- **AI-Assisted Development:** Using GitHub Copilot, Cursor AI, and ChatGPT for code generation, debugging, refactoring, and accelerating development workflows
- **Build & Tooling:** Webpack, Vite, Babel, NPM/Yarn
- **Testing:** Jest, React Testing Library
- **Debugging & Performance Tools:** Chrome DevTools, React Developer Tools, Redux DevTools, Lighthouse
- **Version Control:** Git, GitHub, Bitbucket
- **Project Management & Collaboration:** JIRA, Agile (Scrum), Cross-team collaboration, Code Reviews, Mentoring

Education

Bachelor Of Engineering: Computer Science
Arulmigu Kalasalingam College Of Engineering, Tamil Nadu, May 2010
GPA: 71.24

Higher Secondary: MSP Solai Nadar Memorial Higher Secondary School, Tamil Nadu, May 2006
GPA: 82.33

Secondary: SMB ManickaNadar Packiathammal Matriculation Higher Secondary School, Tamil Nadu, May 2004
GPA: 89.5

Current Work

Associate Consultant (June 2021 - Present)

Tata Consultancy Sercices, Bangalore

Projects :

- **Sales Dashboard :** Lead Desktop UI development and production support for a client's internal product management tool with 5000+ active users, ensuring stability and smooth operations. Drive POCs across multiple product streams while collaborating with cross-functional teams to deliver scalable, user-focused desktop applications.
- **Leadership Dashboard :** Built a micro-frontend architecture using Webpack Module Federation to integrate multiple applications into a unified dashboard, enabling independent deployments. Enhanced performance, maintainability, and reusability across systems for scalable enterprise delivery.

Work History

Technical Lead (March 2020 - June 2021)

Quest Global, Bangalore

Projects :

- **Publisher & Generic System :** Worked on Publisher and Generic System (PGS), a Singapore-based mail service application handling domestic and international deliveries. Built features for Generic (template-based mail printing & delivery) and Publisher (customer-provided mail delivery) systems.
- **Sales Dashboard :** Lead Desktop UI development and production support for a client's internal product management tool with 5000+ active users, ensuring stability and smooth operations. Drive POCs across multiple product streams while collaborating with cross-functional teams to deliver scalable, user-focused desktop applications.

Lead Engineer (June 2014 - February 2020)

Compassites Software Solutions, Bangalore

Projects :

- **Plutora :** Worked on Plutora, a central dashboard for enterprise software delivery that enhances visibility, efficiency, and cost reduction while enabling predictable, high-quality releases across the portfolio.
- **JustOneClick :** Developed JustOneClick, a Singapore-based air ticket booking platform for marine travelers, consolidating and automating bookings, visa processing, and supporting both B2B and B2C eCommerce services.
- **Enchanting Travels :** Built Enchanting Travels, a personalized itinerary planning platform that searches tourist places based on user preferences and generates PDFs with visit details and pricing.
- **Authentix :** Worked on Authentix, Ghana's Excise Tax Stamp System for managing digital tax stamp processing on regulated excise products.
- **SIS :** Developed SIS, a live tracking system for managing security staff attendance, grievances, and performance with dashboards for higher officials.
- **FIS – Bandhan Tablet Banking :** Worked on Bandhan Tablet Banking (FIS product) enabling customer services like loan collection, cash deposit/withdrawal, and KYC/Re-KYC submissions.
- **Posterity :** Developed Posterity Lodging, a responsive US Texas National Guard system for managing drill-period soldier lodging with role-based access (Soldier, NCO, Brigadier), reservations, and notifications.

Front End Software Engineer (August 2010 - May 2014)

HCL Technologies, Bangalore

Projects :

- **Custom Solutions for Yahoo Software Development Center :** CBE (Custom Brand Experience) Team delivered custom advertising experiences, unique site experiences, and interactive advertiser content integrated into Yahoo! properties.

Personal Details

Father's Name: Mr. AR. S. Rajendran
