MANI BHARATHI RAJENDRAN

Principal Engineer | Full-Stack JavaScript & AI Solutions Architect

Professional Summary

Senior Frontend Engineer with 15+ years of experience in building scalable, high-performance web applications using React.js, JavaScript (ES6+), HTML5, and CSS3.

Expertise in UI performance optimization, advanced state management using Redux and Context API, and developing component-based architectures for maintainable and reusable code.

Strong focus on clean coding practices, accessibility standards, cross-browser compatibility, and performance optimization.

Experience in leveraging AI-assisted tools such as GitHub Copilot, Cursor AI, and ChatGPT to improve development efficiency and code quality.

Skills

- **Web Technologies:** HTML5, CSS3, JavaScript (ES6+), TypeScript
- **Frontend Frameworks & Libraries:** React.js, Next.js, Redux, Context API, Tailwind CSS, Bootstrap
- **Frontend Architecture:** Component-driven architecture, Micro-frontends (Webpack Module Federation), State Management, Performance Optimization, Responsive Design
- **Backend & Integration (Growing Proficiency):** Node.js, Express.js, REST API development, API integration, Authentication (JWT-based)
- **AI-Assisted Development:** Using GitHub Copilot, Cursor AI, and ChatGPT for code generation, debugging, refactoring, and accelerating development workflows
- **Build & Tooling:** Webpack, Vite, Babel, NPM/Yarn
- **Testing:** Jest, React Testing Library
- **Debugging & Performance Tools:** Chrome DevTools, React Developer Tools, Redux DevTools, Lighthouse
- **Version Control:** Git, GitHub, Bitbucket
- **Project Management & Collaboration:** JIRA, Agile (Scrum), Cross-team collaboration, Code Reviews, Mentoring

Education

Bachelor Of Engineering: Computer Science
Arulmigu Kalasalingam College Of Engineering, Tamil Nadu, May 2010
GPA: 71.24

Higher Secondary: MSP Solai Nadar Memorial Higher Secondary School, Tamil Nadu, May 2006
GPA: 82.33

Secondary: SMB ManickaNadar Packiathammal Matriculation Higher Secondary School, Tamil Nadu, May 2004
GPA: 89.5

Current Work

Associate Consultant | Full-Stack Engineer (June 2021 - Present)

Tata Consultancy Services, Bangalore

Projects :

- **Sales Dashboard :** Led end-to-end Desktop UI development and production support for a client's internal product management tool serving 5000+ active users. Architected scalable component-based system reducing page load time by 40% and improving user satisfaction. Spearheaded multiple POCs across product streams, mentored team of 3 engineers, and established UI best practices resulting in 50% faster feature delivery.
- **Leadership Dashboard :** Architected and implemented micro-frontend ecosystem using Webpack Module Federation, enabling 4+ independent teams to deploy features simultaneously without coordination. Achieved 35% improvement in bundle size optimization and 60% reduction in cross-team dependencies. Designed scalable REST API integration layer supporting real-time data synchronization for executive dashboards.

Work History

Technical Lead (March 2020 - June 2021)

Quest Global, Bangalore

Key Achievements:

- **Publisher & Generic System (PGS) :** Engineered frontend components for Singapore-based mail service application processing 50,000+ deliveries monthly. Implemented advanced form validation reducing delivery errors by 25% and improving user experience for both domestic and international logistics.
- **Sales Dashboard :** Architected responsive desktop UI for enterprise product management platform serving 5000+ concurrent users. Optimized UI rendering pipeline achieving 45% faster interaction response times and mentoring junior engineers on performance best practices.

Lead Engineer (June 2014 - February 2020)

Compassites Software Solutions, Bangalore

Key Achievements:

- **Plutora :** Contributed to enterprise software delivery dashboard serving 500+ organizations. Optimized React component rendering and state management, reducing page load time by 35% and improving dashboard responsiveness for 100,000+ daily users.
- **JustOneClick :** Full-stack development of Singapore-based air ticket booking platform for marine travelers. Implemented complex multi-step booking workflow with real-time inventory sync, increasing conversion rate by 30% and processing 10,000+ monthly transactions.
- **Enchanting Travels :** Architected personalized travel itinerary platform with PDF generation. Built intelligent recommendation engine reducing user planning time by 50% and generating 5,000+ customized travel guides monthly.
- **Additional Impact :** Led frontend architecture decisions across 7 enterprise products, mentored team of developers, and established component design system adopted across organization.

Front End Software Engineer (August 2010 - May 2014)

HCL Technologies, Bangalore

Key Achievements:

- **Custom Advertising Solutions for Yahoo :** Delivered high-performance custom brand experiences and interactive advertiser content integrated into Yahoo! properties. Optimized ad delivery performance achieving 99.9% uptime and supporting 1M+ daily impressions with sub-100ms rendering.

Personal Details

Father's Name:	Mr. AR. S. Rajendran
Date of Birth:	16-02-1989
Languages Known:	English, Tamil, Malayalam, Kannada
Permanent Address:	17/1, Scheme Road, RV Nagar, Dindigul-624002.

Date : March 24, 2026

Place: Bangalore
