Current Work

Associate Consultant (June 2021 - Present)

Tata Consultancy Sercices, Bangalore

Projects :

- **Sales Dashboard :** Lead Desktop UI development and production support for a client's internal product management tool with 5000+ active users, ensuring stability and smooth operations. Drive POCs across multiple product streams while collaborating with cross-functional teams to deliver scalable, user-focused desktop applications.
- **Leadership Dashboard :** Built a micro-frontend architecture using Webpack Module Federation to integrate multiple applications into a unified dashboard, enabling independent deployments. Enhanced performance, maintainability, and reusability across systems for scalable enterprise delivery.

Work History

Technical Lead (March 2020 - June 2021)

Quest Global, Bangalore

Projects :

- **Publisher & Generic System :** Worked on Publisher and Generic System (PGS), a Singapore-based mail service application handling domestic and international deliveries. Built features for Generic (template-based mail printing & delivery) and Publisher (customer-provided mail delivery) systems.
- **Sales Dashboard :** Lead Desktop UI development and production support for a client's internal product management tool with 5000+ active users, ensuring stability and smooth operations. Drive POCs across multiple product streams while collaborating with cross-functional teams to deliver scalable, user-focused desktop applications.

Lead Engineer (June 2014 - February 2020)

Compassites Software Solutions, Bangalore

Projects :

- **Plutora :** Worked on Plutora, a central dashboard for enterprise software delivery that enhances visibility, efficiency, and cost reduction while enabling predictable, high-quality releases across the portfolio.
- **JustOneClick :** Developed JustOneClick, a Singapore-based air ticket booking platform for marine travelers, consolidating and automating bookings, visa processing, and supporting both B2B and B2C eCommerce services.
- **Enchanting Travels :** Built Enchanting Travels, a personalized itinerary planning platform that searches tourist places based on user preferences and generates PDFs with visit details and pricing.
- **Authentix :** Worked on Authentix, Ghana's Excise Tax Stamp System for managing digital tax stamp processing on regulated excise products.
- **SIS :** Developed SIS, a live tracking system for managing security staff attendance, grievances, and performance with dashboards for higher officials.
- **FIS – Bandhan Tablet Banking :** Worked on Bandhan Tablet Banking (FIS product) enabling customer services like loan collection, cash deposit/withdrawal, and KYC/Re-KYC submissions.
- **Posterity :** Developed Posterity Lodging, a responsive US Texas National Guard system for managing drill-period soldier lodging with role-based access (Soldier, NCO, Brigadier), reservations, and notifications.

Front End Software Engineer (August 2010 - May 2014)

HCL Technologies, Bangalore

Projects :

- **Custom Solutions for Yahoo Software Development Center :** CBE (Custom Brand Experience) Team delivered custom advertising experiences, unique site experiences, and interactive advertiser content integrated into Yahoo! properties.
